

# Thanksgiving

In accordance with the time-honored custom, most every family will have something extra for Thanksgiving dinner, and for this reason we ask your inspection of our excellent line of fancy goods—just the articles you want and need to make your dinner complete. We have the most up-to-date

## Grocery Department in the City

and only ask a chance to show you over stock and convince you that the quality and price is right. Call and see us.

## GAITHER & STUBBS

### Accommodating Lily.

South America is not the only country that can boast of large leaves. In India the Victoria Regia grows leaves several feet across, and with a buoyancy sufficient to sustain the weight of a child. The edges turn up and form a sort of bowl.

### Fine for Company.

I had given a friend a recipe for a pudding. One day I was at her house with several others and at dinner the pudding was served. The woman next to me remarked how nice it was and I said, "Yes, and it is so cheap." Every one at the table smiled.—Exchange.

## PUBLIC HIGHWAYS

### ADVANTAGES OF GOOD ROADS

Public Improvements Will Effect Material Reduction in High Cost of Living.

"Food products were never higher priced or more needed than they were this past year, and yet the food administration states that one-half of our perishable produce rotted on the ground for lack of transportation facilities," said George C. Hubbs, sales manager for a large automobile concern. "Such a waste would be unheard of in Europe. It would spell national disaster. And at first thought it seems remarkable that it should be true of the country which has 229,951 miles of railroad as against 349,391 miles for all the rest of the world put together, and 6,000,000 motor vehicles as against approximately 440,000 for the rest of the world.

"But we must remember that all this great network of railroads and waterways might as well not exist, so far as the farmer located five miles

Motor Trucks Help Farmer to Get His Produce to Market Cheaply and Quickly.

back in the country is concerned, unless he is able to advantageously haul his produce over that five miles to the nearest shipping point. As Secretary Redfield recently put it, 'You might build the railroads up until they are ten tracks wide, but you do not fully help the farmer ten miles away to get his produce to market. And you might fill the rivers with steamers, and he may still be isolated.'

"Motor cars and motor trucks are a partial solution. But they are not enough. To use them advantageously requires good roads as well, over which the farmer can haul his produce in motor vehicles directly to the consumer, where possible, or else to the nearest shipping point. There never was a sounder investment in the world than money expended in the building of good roads. The Romans had learned that 2,000 years ago, and they built their roads so well that some of them are used yet.

"Certainly one of the surest ways to reduce the high cost of living is to build more good roads. And the 'build now' campaign which Mr. Wilson, secretary of labor, has recently started should receive the hearty support of everybody."

### WILL TEACH HIGHWAY WORK

University of Michigan Announces Course in Road Transport to Its Students.

One of the most far-reaching developments to place our national highway system on a sound, uniform and economical basis is the recent announcement by President H. B. Hutchins that the University of Michigan will offer a course in highway trans-

port to its students, says the B. F. Goodrich Rubber company.

The significance of highway freight transportation was vividly brought to light by the war and is now recognized as much a part of our shipping and communication scheme as are the railroads and the steamship lines.

### INVESTMENT IN GOOD ROADS

Does Not Become Real Economy Until Provision Is Made for Proper Maintenance.

(Prepared by the United States Department of Agriculture.) Investment of money in new roads does not become real economy until provision is made for keeping these new roads in condition after they are built. If a new road is built and then allowed to fall into disrepair, much of the original investment is simply wasted.

### To Secure Permanency.

It would seem advisable that in the construction of all roads, some good, durable material should be applied as a top covering in order that permanency may be secured.

### Drag Troublesome Road.

If you and your neighbor are having trouble over your road, don't drag it into court. Just drag it.

### Anybody Can Build Road.

Anybody can build a good road—if you give him enough money.

## A NASTY COLD

### EASED AT ONCE

"Pape's Cold Compound" then breaks up a cold in a few hours

Don't stay stuffed-up! Quit blowing and snuffing! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken usually breaks up a severe cold and ends all gripe misery. The very first dose opens your clogged-up nostrils and the air passages of the head; stops nose running; relieves the headache, dullness, feverishness, sneezing, soreness and stiffness.

"Pape's Cold Compound" is the quickest, surest relief known and costs only a few cents at drug stores. It acts without assistance, tastes nice, contains no quinine—insist upon Pape's!

## Seven Things To Be Sure Of IN THE PURCHASE OF YOUR PIPELESS HEATING SYSTEM

- 1 That the quality of heating service assures a comfortable, clean, healthful home in any weather.
- 2 That the convenience of simple operation, regulation, and quick heating compares favorably with much more expensive types of heating systems.
- 3 That the low first cost is due to economy of material and labor instead of cheapness of construction.
- 4 That the fuel bill can be reduced from 1-4 to 1-3—enough to save handsome dividends on the amount invested.
- 5 That the "upkeep," or expense for repairs, is positively less than any other types of heating systems.
- 6 That you are protected at this store, because of the manufacturer's refusal to authorize installation where their trained heating engineers cannot safely guarantee it to operate efficiently in your home, their decision being made after careful study of conditions in your home—no guess work—thus protecting all concerned.
- 7 That the purchase will increase the value of your property more than the amount invested.

All are true of the Round Oak That's why we sell and recommend it

## For the home-gathering at Thanksgiving—a Victrola

No more delightful way to entertain can be found than with the music of the Victrola. There is a kind to suit the taste of every member of the family, every guest, every mood, whim, or fancy—from the masterpieces of opera interpreted by the world's greatest artists to stirring bands by famous leaders, and the latest hits of vaudeville.

Make your home resound with music this holiday season.

Come in and select your Victrola—on convenient payments, if desired.
